

WoodBridge Vinyl Garage

In choosing a garage, whether to park a tractor, or for storage the most important things to look for are strength, durability and low maintenance. WoodBridge Vinyl Garages offer-by-far the best combination of these features. They will not rust, dent, rot, mildew, or fade and they never need painting.

They are reinforced with metal inserted columns for even greater rigidity and strength. This WoodBridge vinyl garage can handle up to 20 lbs per square foot of snow and comes with 88" double doors that are wide enough to drive a common tractor. Their attractive design and neutral ivory color go well anywhere. All WoodBridge garages come with a free two shatter proof window panel, one skylight and a foundation kit.

- Available Sizes: 10.5'X 15.5', 10.5'x 18', 10.5'x 20.5', 10.5'x 23', 10.5'x 25.5', 10.5'x 28', 10.5'x 30.5'

PACKAGING

The building is packaged in a heavy duty cardboard box. The packaging includes all components, hardware and an illustrated step-by-step instruction booklet.

ASSEMBLY MADE EASY

The assembly is simple, clean, safe and can be completed in four to five hours with two people. All parts are pre-cut, drilled and numbered for ease of assembly. All you need to provide is a level surface of either wood, or concrete, the size of the desired building. In addition you will need a power drill, hammer, measuring tape, pliers and a ladder.

Please do the following prior to your Duramax Building Product purchase:

- Check with your local city hall for building ordinances & CCR's
- Be sure that intended placement of shed is within your property lines
- Do not build shed over utility lines (gas, electrical, water, telephone, cable, etc)
- Measure the size of the intended shed site and make sure you have a level wooden or concrete foundation (Optional Foundation Kit available)
